Product ID: ISCT200 - Instanta CT200 Professional Water Boiler Stainless Steel

Good Quality Product Manufactured in UK free next day delivery on orders before 2pm

Instanta CT200 Professional Water Boiler Stainless Steel

These new boilers incorporate the latest technology with state of the art electronics incorporating a digital display which reports the boiler status and provides easily readable early warning of limescale build up and full diagnosis of any component failure. Models incorporate our new ECO mode which allows you to switch the boiler to energy saving half capacity during your quiet periods. Such is our confidence in these products they now carry a two year on site parts and labour guarantee. The compact and reliable Hundred series, ideal for hot water instantly with no fuss.

Our popular 200 boiler with many thousands now in use has undergone a dramatic upgrade. This model is the latest version of the WB200 which was introduced in 1972. However the CT200, still ideal for a regular and steady flow of servings, now has an increased initial draw off of 10 litres and, with a tap clearance of 275mm, is ideal for those who need to fill tall pots. The new CT200 has Instanta's full digital read out which reports the boiler status and provides easy to read warnings of lime scale build up and a full diagnosis of any component problems. Thermistor controlled for constant temperatures of 98c, the boiler also features an ECO mode which allows you to switch to energy saving half capacity during quiet periods.
