Product ID: AF125 - Airfree P125 Air Purification Unit

Let us introduce you to Airfree the new and clean technology to reduce indoor pollution.

Inside Airfree's patented ceramic core 99.99% of all micro-organisms: spores, fungus, bacteria, virus, mold spores, are incinerated at temperatures around 400F (250°C). That is done without significant heat contribution to the ambient. No living microorganism survives this power.

Airfree reduces Ozone whereas ozone generators generate dangerous levels of such harmful gas that destroys lung tissue, triggers respiratory diseases, and corrodes metallic equipment.

Model: Airfree Platinum 125

Capacity: 650 sq ft (51m²)

Electric consumption: 50W

Voltage: 110 - 240V

Dimensions: height 10.4 in. and diameter 8.4 in., height 26,5 cm. and diameter 21,5 cm.

Noise level: Totally Silent

Weight: 2,8 lbs (1,27Kg)

Anti-stress Light: Yes

Our Price: 199.00 GBP + VAT
